1. Clipped in – You must be clipped in to the safety line by at least one carabiner at all times. If you are not clipped in, you could fall and get seriously injured, perhaps fatally.
2. Consideration for others – Please act responsibly and courteously at all times, so everyone has a good time.

PLEASE UNDERSTAND THAT:

- The activities in the park do involve risks and can result in serious harm or death if you do not follow the safety rules.
- Our safety staff supervise from the ground. We provide participants with advice when required.
- Children under 16 years must be actively supervised by a parent or guardian (over 18 years).

Active supervision means staying within eyesight of the participants and Adrenalin Forest safety staff.

WILL I BE SAFE?

Enjoy climbing amongst the trees while having the peace of mind that your safety is taken care of. Our revolutionary Clic-iT system ensures a continuous connection to the safety line – this eliminates the risk of accidental removal of both safety devices while on the course.

HOW TO FIND US.

The park is located in TECT All Terrain Park, on Pyes Pa Rd.

This is situated just off SH36, the main road linking Tauranga and Rotorua – and is approximately a 30 minute drive from both Tauranga and Rotorua.

From Tauranga: Travelling from Barks Corner roundabout (intersection of SH29 and SH36), head towards Rotorua. Then approximately 22km up Pyes Pa Rd (SH36), turn left onto Whataroa Rd.

From Rotorua: Travelling from Rotorua Town Centre, head North along SH5 (Ngongotaha Rd) then follow SH36 along the lake. Turn left onto Tauranga Direct Rd at the major intersection (this is still SH36 – at some point the road name will change to Pyes Pa Rd). Then take the second right out of Mangarewa Gorge, onto Whataroa Rd.

LEVEL 1

Easy and low, the first level is your warm up – 12 challenges less than 3 metres high. Accessible to children from 1.30 metres tall.

LEVEL 2

Still easy but a bit higher – 13 challenges less than 7 metres high. Here you'll come across nets, flying foxes and barrels.

LEVEL 3

16 diverse challenges which will require agility and balance. This level will begin to challenge you. The most exciting challenges are the snowboard and the commando flying fox.

LEVEL 4

17 challenges – so more strength and agility will be needed, mainly on the Tarzan jump, islands jump and log-o-vator. This course is certainly the longest to complete.

LEVEL 5

Up to 15 metres high – this course features 15 challenges. Lots of agility is required, because it will challenge both your mind and body.

LEVEL 6

Harder, stronger, higher! This course will get your heart pumping to the max, from start to finish.
WARNING: Risk of becoming an adrenalin junkie.
