1. Clipped in – You must be clipped in to the safety line by at least one carabiner at all times. If you are not clipped in, you could fall and get seriously injured, perhaps fatally.
2. Consideration for others – Please act responsibly and courteously at all times, so everyone has a good time.

PLEASE UNDERSTAND THAT:

- The activities in the park do involve risks and can result in serious harm or death if you do not follow the safety rules.
- Our safety staff supervise from the ground. We provide participants with advice when required.
- Children under 16 years must be actively supervised by a parent or guardian (over 18 years).

Active supervision means staying within eyesight of the participants and Adrenalin Forest safety staff.

WILL I BE SAFE?

Enjoy climbing amongst the trees while having the peace of mind that your safety is taken care of. Our revolutionary Clic-iT system ensures a continuous connection to the safety line – this eliminates the risk of accidental removal of both safety devices while on the course.

LEVEL. NEW. WHOLE TO A ADVENTURE TAKE

CHALLENGES. HUNDRED OVER ONE

LEVEL 1

Easy and low, the first level is your warm up. 10 challenges less than 2 metres high. Accessible to children from 1.30 metres tall.

LEVEL 2

You're getting higher now with 14 challenges up to 7 metres high. The first Indiana jump is great fun and the barrels are a challenge for people to crawl through.

LEVEL 3

18 diverse challenges which will require a lot more agility and balance. This level will begin to be challenging. The most exciting challenges are the balance rope and the zig-zag logs.

LEVEL 3B

Move fast through this smaller but equally exciting level. The highlights are the crossed logs and the wrecking ball.

LEVEL 4

20 challenges – so more strength and agility will be needed, mainly on the commando flying fox, the Tarzan jump and the snowboard. This course is certainly the longest to complete so far.

LEVEL 5

You'll be up to 18 metres high so the trees will begin to move. The 15 metre high snowboard and 18 metre high flying fox will get the blood pumping and the high level wrecking ball will freak you out. This level is physically challenging so make sure you have plenty of energy.

LEVEL 5B

Flying fox safari – Get ready to soar! Launch yourself across the 11 flying foxes and experience gravity defying thrills that will leave you breathless. Less physically demanding than the other pathways, but not for the faint hearted, 5B is guaranteed to pack an adrenalin punch!

LEVEL 6

Harder, stronger, higher! You'll find all of the hardest challenges immediately before and after the 18m high jump – the biggest thrill of the whole park. The two long flying foxes – each over 90m long – are a real highlight too.
